ellular and Molecular Neurobiology—Volume 4, 1984

ular and Molecular Neurobiology publishes original research articles concerned with the analysis of neuronal and brain function at the cellular ubcellular levels. The journal welcomes articles utilizing anatomic, physiologic, pharmacologic, or biochemical approaches to the study of ronal function and oriented to the analysis of elementary mechanisms. Studies of isolated mammalian tissues, and intact animals, with stigation aimed at the molecular mechanisms or neuronal responses at the level of single cells, are accepted for publication. The journal also ents studies of the effects of neurons on other organ systems, such as analysis of the electrical or biochemical response to neurotransmitters or rohormones on smooth muscle or gland cells.

CONTENTS

ARTICLES

Oxymorphazone: A Long-Acting Opiate Analgesic 1
Geoffrey S. F. Ling, Steven Galetta, and Gavril W. Pasternak

Acetylcholine Turnover in an Autoactive Molluscan Neuron 15
Susan R. Barry and Alan Gelperin

The Axosomatic Contacts on the Bursting Neuron of the Snail *Helix pomatia*. I. Ultrastructural Features of the Axosomatic Contacts 31
Larissa M. Koval, Nikolai I. Kononenko, and Galina G. Skibo

The Axosomatic Contacts on the Bursting Neuron of the Snail *Helix pomatia*. II. Ultrastructural Localization of Adenylate Cyclase 43
Larissa M. Koval, Nikolai I. Kononenko, and Galina G. Skibo

Diffusion of Ions and Indicator Dyes in Neural Cytoplasm 53
John A. Connor and Zahur Ahmed

Peripheral Nerve Extract Promotes Long-Term Survival and Neurite Outgrowth in Cultured Spinal Cord Neurons 67
Heinz Popiela, Thomas Porter, Robert L. Beach, and Barry W. Festoff

Effects of Various Kinds of Stimulation on Ornithine Decarboxylase Activity in Superior Cervical Sympathetic and Nodose Ganglia of Rats 79
Masato Ando, Masato Miwa, and Yutaka Nagata

SHORT COMMUNICATION

Modulation of Neuronal Responses to L-Glutamate in *Aplysia* 91
Michael J. McCreery and David O. Carpenter

Cellular and Molecular Neurobiology

Vol. 4, No. 2 **June 1984**

CONTENTS

ARTICLES

Characterization of the Voltage-Gated Na^+ and Ca^{2+} Currents in Identifiable Cerebral A Neurons of *Aplasia* 97
Donald A. Farquharson and Behrus Jahan-Parwar

Effect of Cholinomimetics on the Release and Uptake of L-[^{3}H] Glutamic Acid in Rat Neostriatum 117
O. V. Godukhin, A. Yu. Budantsev, O. V. Selifanova, and V. N. Agapova

The Electric Organ of *Discopyge tschudii:* Its Innervated Face and the Biology of Acetylcholinesterase 125
Bernardita Méndez, Jorge Garrido, Mafalda Maldonado, Fabián M. Jaksic, and Nibaldo C. Inestrosa

Alterations in High-Affinity Binding Characteristics and Levels of Opioids in Invertebrate Ganglia During Aging: Evidence for an Opioid Compensatory Mechanism 143
Amy Chapman, Gonzalo Gonzales, Wayne R. Burrowes, Paul Assanah, Bernadette Iannone, Michael K. Leung, and George B. Stefano

Modulatory Effects of Different Temperatures and Ca^{2+} Concentrations on Gangliosides and Phospholipids in Monolayers at Air/Water Interfaces and Their Possible Functional Role 157
Wolfgang Probst, Dietmar Möbius, and Hinrich Rahmann

SHORT COMMUNICATIONS

Modulation by Dopamine of Population Spikes in Area CA_1 Hippocampal Neurons Elicited by Paired Stimulus Pulses 177
Valentin K. Gribkoff and John H. Ashe

N-Methyl-D-Aspartate and L-Aspartate Activate Distinct Receptors in Piriform Cortex 185
J. M. H. ffrench-Mullen, N. Hori, D. O. Carpenter

Activation of β-Adrenergic Receptors Stimulates Taurine Release from Glial Cells 191
William G. Shain and David L. Martin
